AGENT'S SERVICE: Its value is often overlooked by the policyholder because it has been rendered in too unobtrusive fashion.

We see the work of many agent's and many of them give their assured service that is literally beyond price.

There are a few who do not give value received.

The competent agent who has rendered a full measure of service—and has impressed that upon his assured—has little to fear from competitors who sell their wares on price, who dangle a prospective 'savin' of a few premium dollars before their prospect's eyes and care—fully say nothing of the liabilities he will assume to get that "saving."
